Our services at a fixed price are inclusive of freight and packaging costs excluding consumables or glass parts. Additional costs for these items will be mentioned to customers in advance. In case the repair cost will exceed 50% of the list price of a new instrument, IKA will reserve the right to invoice its work based on costs.

In cases where no instrument failure can be detected by one of our technicians, and it is determined that a repair was not needed, IKA will charge a flat rate of 30 minutes working time. Our prices are exclusive of VAT and are valid until December 31, 2020.

Please observe the following conditions:

- > The form "Fix Price Repairs" must be filled out, signed and attached
- > The "Decontamination Certificate" must be filled out, signed and attached
- > The package has to be marked clearly as safe on the outside ("No Danger" sticker included in the Decontamination Certificate)

Price category I - repair - item number: LFLATB01 **180,- €**

- RH basic / digital
- Rocker 2D / 3D basic / digital
- Roller 6 / 10 basic / digital
- Trayster basic / digital
- Loopster basic / digital
- ETS-D5 / ETS-D6
- IKA [scale]
- mini G

Price category II - repair - item number: LFLATB02 **275,- €**

- C-MAG series
- ULTRA TURRAX® Tube Drive
- ElectraSyn 2.0
- MS 3 basic / digital
- RCT
- Dry Block Heater 1 / 2 / 3 / 4
- KMO 2 / 3 basic
- MTS 2/4 digital

Maintenance and pressure test - item number - LFLATA01 **275,- €**

Decomposition vessels type AOD 1, C 5010/12, C 6010/12, C 7010/12 (maintenance, replacement of all worn parts with safety test and certificate) In case of damaged pressure-related components (swivel nut, lid, lower part), a repair under fixed price conditions is not possible.
